ATELIER CACHET

### ATELIER CACHET

an award-winning, multi-disciplinary design firm that builds Modern, Luxe Estates and Designs Couture Interiors.

Since 2004 by Husband and Wife team Nathalie Tremblay and Dave Nicholas, the company's edgy, sleek aesthetic and its use of simple forms and a balanced mix of materials during the design process have earned its reputation as a leader in the custom contemporary design/build category.

**“I would love to learn how to play the drums.** It requires performance skills with impressive coordination and intelligence.”

## Laura Stein

Laura Stein Interiors  
[www.laurasteininteriors.com](http://www.laurasteininteriors.com)

**“I am not a big fan of the fast fashion and disposable design trend that has become so prevalent.** Not that long ago, quality and craftsmanship were valued as much as style, and people would buy for longevity. I would love to see a cultural shift back towards an appreciation of finely crafted products made with quality materials.”

# Q

*I'm designing my kitchen and I am overwhelmed with all the options! Can you share some ideas of things you like to integrate into your kitchen designs?*

**Answer** I'm here to help! I've included ideas from one of my projects to help guide you through your kitchen design.

### CUSTOM HOOD

The horizontal ribbing on the range hood is my signature design element. Made from stacked ribs of dimensional oak, this custom range hood always makes a statement!

### ACCENT BACKSPLASH

A chic marble accent backsplash was installed in a brick pattern. The kitchen's cleanup center is equipped with a large double-bowl sink, and a high-arched commercial-grade faucet which are all must-haves in a kitchen!

### REFINED LAYOUT

This refined layout features separate work zones for food preparation, cooking, cleanup, and storage making an efficient work triangle. Polished stainless steel appliances throughout are built-in to ensure a streamlined look.

### MULTILAYERED LIGHTING

A kitchen should be well lit and welcoming at all times. The more circuits you have in a kitchen, the more versatility you have. Well-positioned spotlights are ideal for task lighting.

Put stools on both sides of your island for additional seating when hosting dinner parties.

### FIREPLACE

The two-sided fireplace connects the spaces together and is a true showstopper. The wall is clad with beautiful dark wood paneling and slate.

### COLOR SCHEME

The two toned cabinetry brings visual interest, unique character and helps define the sleek lines of the kitchen. The high contrast color palette adds richness and gives the room a pulse.

### CLEARANCE

The width of a work aisle should be at least 42" for one cook and at least 48" for multiple cooks. The width of a walkway should be at least 36".

## 3 MUST-HAVE DINNER PARTY ACCESSORIES

### DRINKWARE

Give your dinner parties a classic touch with this beautiful metallic finish drinkware.
