“The first thing that I notice about people is their accent. How we speak is a part of our personality and heritage. I love guessing which part of the world someone is from based on their unique accent.”

Joe Mancuso

Royal LePage Estate Realty

“A new trend that I don’t like is embroidered anything; bags, shoes and clothes! I’m not a fan of that trend!”

Negar Reihani

Space Harmony

“If I could only wear one color for the rest of my life, I would wear different shades of orange. I like this color because it makes me feel happy and energized.”

Nathalie Tremblay

Nathalie Tremblay is an award-winning designer and principal of Atelier Cachet.

This look is refined Holiday glam. Modern furnishings, luxe textures and metallic accents help create this look. The neutral color scheme of white, gray and black is classically powerful and brings a luxurious ambiance to the room. The high contrast of the matte white walls juxtaposed with the black oak dining table and gray leather chairs gives a bold statement and emphasizes the clean lines of the furnishings. Polished metallic accents sparkle throughout the room to add instant glamor. The organic accessories throughout create a dramatic contrast to this stunning dining room.

Jacklynn Little

Jacklynn Little is a designer and principal of Jacklynn Little Interiors.

When it comes to decorating for the Holidays, don't forget your bedroom as you might want to show it off to visitors.

My design ideas usually start with inspiration from fabric. I wanted to use a classic Christmas color such as red but give it a relaxed yet sophisticated look by pairing it with black and white. I also like the idea of creating a dramatic effect on the ceiling by painting it red. Adding a fireplace creates a warm, welcoming bedroom you'll love to relax in.

ATELIER CACHET

ATELIER CACHET

an award-winning, multi-disciplinary design firm that builds Modern, Luxe Estates and Designs Couture Interiors.

Since 2004 by Husband and Wife team Nathalie Tremblay and Dave Nicholas, the company's edgy, sleek aesthetic and its use of simple forms and a balanced mix of materials during the design process have earned its reputation as a leader in the custom contemporary design/build category.
